LIBRARY

PLEASE READ—OF INTEREST TO YOU.

Having Doubled

Our CAPACITY, and perfected the working arrangements with our EUROPEAN POTTERIES, we are in much better shape to serve our friends in the China Decorating Trade than formerly.

Regarding Shipping.

We always ship the CHEAPEST WAY—if you prefer some SPECIAL ROUTE, be sure and NAME it; goods sent by mail are at the risk of party ordering them so sent.

Large Discount

Means a high list—our price list is the lowest in the United States, and has been the means of building up our ENORMOUS business.

Your Business Address

or the business address of your husband (if you have one), assists in the prompt delivery of mail and shipments.

New Shapes,

Not catalogued, are continually arriving. We suggest the advantage of giving us the privilege to forward new samples, when you order. Customers at a distance are pleased with this arrangement.

We Fill Orders NOTE THIS

As complete as we can. It is practically impossible to always have on hand every item in our enormous stock. We are receiving packages out of the Custom House daily, and can generally ship "outs" with the next lot you may order; if possible, name second choice on your orders.

Remit

In New York or Boston exchange, Postoffice or Express Money Order. Personal checks must be certified.

The Prices

In this catalogue are for goods packed ready for shipment. All prices subject to change without notice.

NO CHARGE FOR PACKING OR CARTAGE.

GEO. W. DAVIS & CO., IMPORTERS OF CHINA.

56 and 58 State Street, Rochester, N. Y.

GEO. W. DAVIS & CO., OF ROCHESTER, N. Y.

Dear Friend:

We are pleased to hand you herewith our 1907-8 White China Catalogue and Price List--more comprehensive than ever and far more complete than published by any other house. You will find

NEW ITEMS ON EVERY PAGE,

Which will interest you, and at prices very attractive. We call your especial attention to ''Rochester'' Roman Gold--a superior article--already exclusively used in many of the large studios in the United States. ''Rochester'' China Kilns are a great success in the hands of hundreds of decorators.

We thank you for inquiry, and assure you any orders will have prompt and careful attention.

Respectfully yours,

GEO. W. DAVIS & CO.

FROM OUR LIST PRICES

In this Catalogue we allow discounts as follows:

White China,	10 per cent.
Belleek,	net.
"Rochester" Kilns,	net.
Medallion Mountings,	net.
"Rochester" China Colors,	30 per cent.
China Colors,	20 per cent.
Painting Materials,	10 per cent.
Gold, Roman and Liquid,	10 per cent.
China Studies,	net.

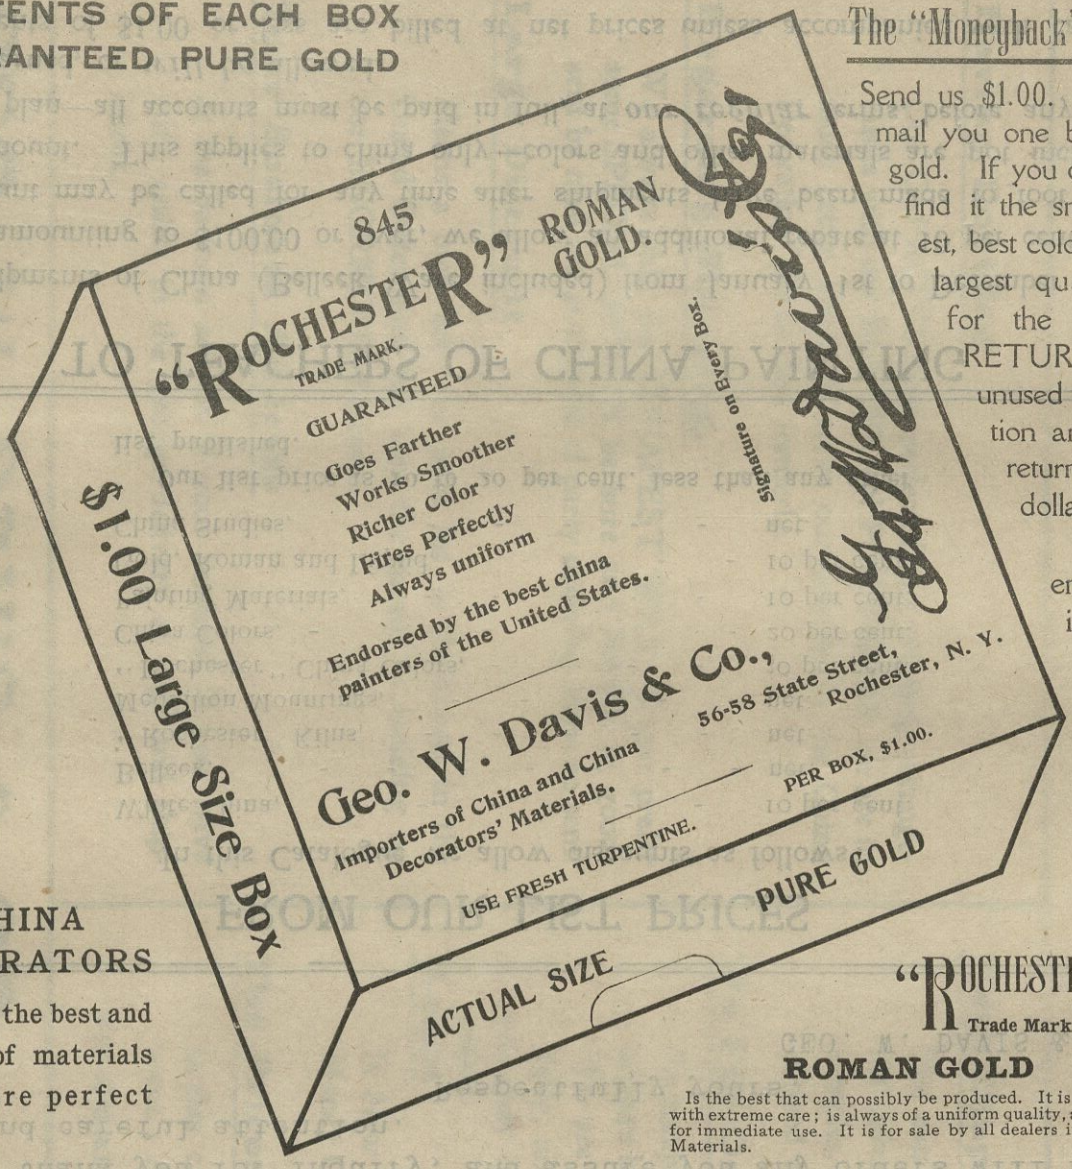
Our list price is 10 to 20 per cent. less than any other list published.

TO TEACHERS OF CHINA PAINTING

On shipments of China (Belleek Ware included) from January 1st to December 31st, of any year, amounting to $100.00 or over, we allow an additional rebate at 10 per cent. This extra discount may be called for any time after shipments have been made to foot up the required amount. This applies to china only—colors and other materials are not included in this rebate plan—all accounts must be paid in full, at *our regular* terms, before any rebate has been earned, or *will be* allowed.

Shipments of $1.00 or less are billed at net prices unless accompanied with cash and mailing charge.

CONTENTS OF EACH BOX GUARANTEED PURE GOLD



The "Moneyback" Gold

Send us $1.00. We mail you one box of gold. If you do not find it the smoothest, best color, and largest quantity for the price, RETURN the unused portion and we return your dollar.

Fair enough, isn't it?

CHINA DECORATORS

Require the best and purest of materials to insure perfect results.

"ROCHESTER" Trade Mark

ROMAN GOLD

Is the best that can possibly be produced. It is prepared with extreme care; is always of a uniform quality, and ready for immediate use. It is for sale by all dealers in Artists' Materials.

Besides the ROMAN MATT, constantly on hand or supplied at short notice, GREEN Matt, RED Matt and UNFLUXED SPECIAL GOLD (for working over color).

WE WANT YOUR ORDER FOR THIS SUPERIOR GOLD

Price List

845 Roman Gold	$1.00 Box	$10.00 Dozen
U 845 Unfluxed Gold	1.00 Box	10.00 Dozen. Postage 4c. Box.

Per Box, 35c. **Six Boxes $2.00**

"Genesee" Superior Roman Gold For China

This box contains sufficient gold (if properly used) to edge 50 one-inch China Cuff Buttons.

DIRECTIONS.—Flow over the gold very little pure turpentine, then mix together with palette knife. Use No. 4 or 5 square shader for broad washes. Use No. 2 or 3 tracer for fine lines. A thick application of this gold is unnecessary.

GEO. W. DAVIS & CO.,
56-58 State St., ROCHESTER, N. Y.

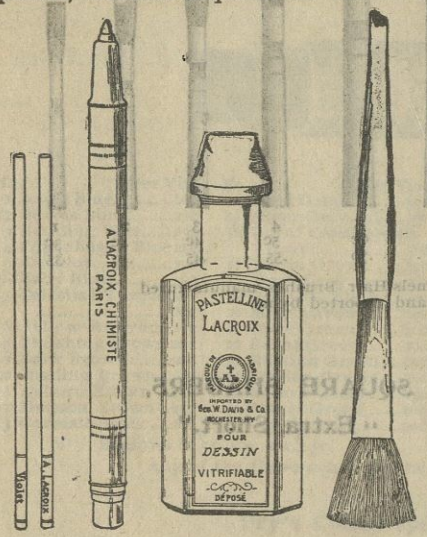
La Croix's Vitrifiable Crayon Pastel.

THE LATEST PARISIAN CRAZE

China Decoration with Mineral Pastel Crayons

The La Croix Pastelline Decorating Outfit offers to artists in all branches a means of drawing on the glazed surface of China and Earthenware, by which they can make use of their art knowledge and aptness, whether acquired in the oil or



water color branches. A long training as a ceramic artist is quite unnecessary, although an experienced china decorator will instantly comprehend the advantages offered them by the great color chemist La Croix, in this outfit.

Modus Operandi

After selecting the piece of china to be decorated, the *pastelline* liquid is applied by a brush. This liquid roughs the surface of the china, so that the colors may be applied by Mineral Pastel Crayons (which are furnished by us) or stumped on to give brush effects, after which the china is fired, bringing out the true color in underglaze as the artist intended, producing beautiful effects, impossible in any other mode of decoration.

This kind of drawing is almost as easy as drawing on paper. Mistakes may be rubbed out with bread crumbs; in fact the work can be done over any number of times, although too frequent erasures are of course, to be avoided. Corrections can be made at any time except after firing.

The Outfit Consists of

1 16-page book of instructions (in English and French).
1 Bottle of Pastelline (for roughing the surface of the china).
1 Brush for applying Pastelline.
1 Pastel Crayon Holder
16 Pastels—colors as follows:

Ultra Marine Blue	Sanguine Red	Grey
Green Blue	Rose	Black
Grass Green	Purple	Brown
Dark Green	Violet of Gold	Bistre
Yellow		Violet

Price complete as above $5.00 postpaid.

THE "ROCHESTER" OIL CHINA KILN

A Perfect Firing Kiln at Moderate Price.

$35 SIZE A

The "Rochester" China Kiln (oil burning) is offered in response to repeated demands for a perfect China Kiln, in which the objections and defects of other kilns will be eliminated. The "Rochester" China Kiln is built on different lines from others. It is only necessary to open a muffled door and you are at once in a position to either stack or draw the Kiln most conveniently.

CONVENIENCE. The door is sufficiently high above the floor to eliminate backaches, and the process of firing can be seen through the mica window in the door.

The "Rochester" Kiln, through the agency of a newly improved burner, consumes a great quantity of oxygen, making a more powerful fire than any other burner and effects a great saving of fuel.

"ROCHESTER" CHINA KILN

Size "B," $50.00

FIRING. The firing expense may further be reduced by the use of crude oil, which fires perfectly in the burner of the "Rochester" Kiln, and can be used in no other Kiln satisfactorily.

The two shelves placed under the muffle of the "Rochester" Kiln will be found a great convenience, making a place for stilts, platten and other accessories used in operating.

TIME. It is possible to fire the "Rochester" Kiln in considerable less time than required by any other Kiln upon the market, without sacrificing any of the glaze effects desired. The perfection in the burner of the "Rochester" Kiln makes the combustion perfect, and thus allows the operator to leave the Kiln unattended temporarily without any fear of the oil flowing into the burner faster than it can be consumed, which would cause disastrous results.

In appearance the "Rochester" Kiln is rather attractive than otherwise, and becomes a desirable studio accessory.

CONSTRUCTION. The durability and simplicity of construction is not sacrificed, however, for appearance, it being built throughout of the best material, fitted with the best firing clay known, bringing out perfect results in the development of the various colors and always a satisfactory glaze.

The size at present offering takes in fully 95 per cent. of the ware fired for amateurs, and is offered at a price within the purchasing ability of all who decorate. Other sizes are in the process of construction.

Size A, including tank and connections, - $35.00
Inside dimensions of Muffle, 14 in. long, 12 in. high, 9 in. wide. Shipping weight; 200 pounds.
Size B, including tank and connections, - $50.00
Inside dimensions of muffle, 16 in. long, 15 in. high, 10 in. wide. Shipping weight, 575 pounds.

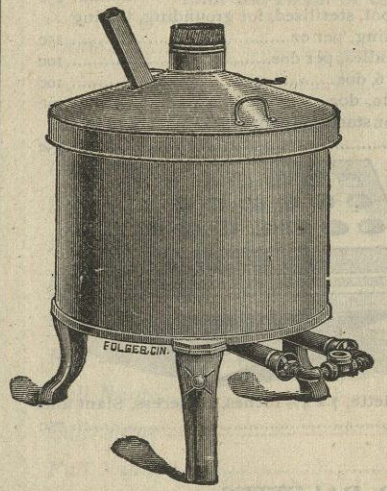
Stearns & Fitch Gas and Charcoal Kilns.

FOR FIRING DECORATED CHINA



FITCH GAS KILNS.

It is nearly twenty-five years since the Stearns Fitch Charcoal Kilns were put on the market. Later gas attachments were made, and our Gas Kilns work equally as well with coal or natural gas. *Acetylene* Gas has not sufficient heat.

They can be set up in studio, laundry or cellar, in fact in any convenient place where the pipe can connect with chimney flue or window.

S. & F. GAS KILNS.

No. 2 Gas Kiln, - - - - - $30.00

Inside, 14 inches high by 12 inches. Requires inside ¾ inch pipe. Ten light meter—weighs 300 lbs. Fires from 25 to 50 pieces.

No. 30 Gas Kiln, - - - - - $40.00

Inside, 16 inches high by 19 inches. Requires full 1 inch (inside) pipe, direct from 20 light meter—weighs 600 lbs.

In ordering please state if natural or artificial gas is to be used.

It takes from one and a half to two hours, according to the quantity and pressure of gas, and the Kiln should not be opened until it has cooled sufficient to allow the ware to be handled.

We will be pleased to have your order.

S. & F. CHARCOAL KILNS.

No. 1—10 inches high by 12 inches, - $15.00

Fires 15 to 25 pieces with one bushel of charcoal. Weight 250 pounds.

No. 2—16 inches high by 12 inches, - $20.00

Fires 25 to 40 pieces with one and a half bushels of charcoal. Weight 300 pounds.

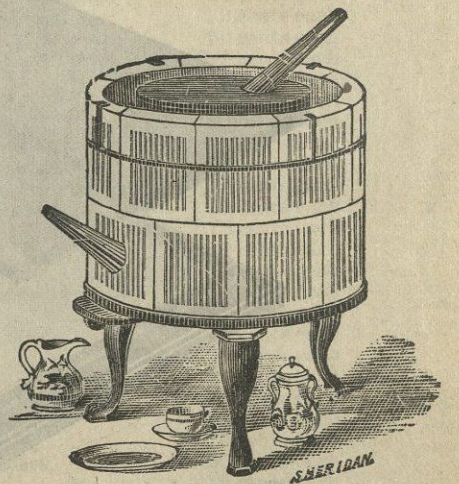
No. 3—16 inches high by 15 inches, - $25.00

Fires 40 to 70 pieces with two bushels of charcoal. Weight 400 pounds.

No. 4—18 inches high by 26 inches, oval shape, - - - - - - $50.00

Fires from 80 to 125 pieces with four bushels of charcoal. Weight 900 pounds.

These Kilns complete, with full directions, F. O. B. cars here.



FITCH CHARCOAL KILNS.

NOTE.—The firing pots to these Kilns have straight sides and flat bottoms. No waste space whatever.

"Excelsior" China Kiln shown on Page 87, Cat. 19.

We Photograph on China

Our process is entirely new and adapted to any subject. We particularly note here, however, miniature work. If you wish any photographs reproduced on China plates or panels, we execute the work carefully and promptly—the charge depends upon the size of the reproduction and the quantity to be turned out. Ask us about it.

TESTIMONIALS.

One customer writes:

"I am so pleased with my 'Rochester' Kiln; it is just fine. I would not exchange it for an iron pot kiln under any circumstances."

Another says:

"My 'Rochester' Kiln has been in constant use for over a year, and I take extreme pleasure in assuring the public that it has no equal."

One writes:

"I would say that the results from the use of my 'Rochester' Kiln, have been most satisfactory indeed."

KNOXVILLE, PA., Oct. 21, 1904.

Messrs. G. W. Davis & Co. of Rochester:

GENTLEMEN—I have been on a little trip through several Western States, and took special pains to look up white china. I found it in the largest stores in Marrinette and Milwaukee, Wis., and in Chicago, St. Louis and Cleveland, Ohio, and Burlington, Ia., but could find no place where it was sold as cheap as you sell it. Some of the very identical pieces I had purchased of you I was charged almost double your price in the Western cities, so decided Rochester was the place to buy china. Very truly,

(Name supplied on request).

GEO. W. DAVIS & CO. OF ROCHESTER

"DEEKO" CHINA STAMPING OUTFITS

The "Deeko" method of stamping gold or color on China is the simplest method ever devised. It utilizes the ordinary *rubber stamp*, which every one is familiar with, but which has never been used in China decoration until perfected by us. The process is simplicity itself, and can be learned in a few moments. Beautiful results are obtained, which are impossible to do by hand. A few minutes practice will enable one to become expert.

Preparing "Liquid Bright Gold" for Use with "Deeko" Stamps

Pour twenty drops of "Liquid Bright Gold" into a saucer, and add to the same two drops of "Deeko" Stamping Liquid. Mix this and allow the same to stand where it will be free from dust (cover with glass cover if possible), until the same becomes fairly stiff by evaporation. Take a palette knife, thoroughly work this together for a few minutes, then lay the same out on a glass tile, and with a "Deeko" spatula, which is made especially for this purpose, scrape a very even and fine layer of this gold over the tile. When this is done the stamping can be commenced. Press firmly in the center of the same, so that blurring of the lines will be avoided.

It is imperative that the gold be laid on very sparingly on the tile, and also evenly, so that the stamp will not take up more gold in one part than another. Roman Gold may be used in the same manner. For *color* stamping, use "Deeko" Stamping Liquid, dusting on color as it is about to dry.

Before stamping ware *be sure* that the same is entirely free from *dust* or moisture.

In stamping round pieces, the stamp should be started at one end and pressed firmly down, gradually working around to the other end.

To fire, proceed as in all other methods of decoration.

STAMPING LIQUID

"DEEKO" STAMPING OUTFIT

3 "Deeko" Stamps, your choice

Exterior of "Excelsior" Kiln

Excelsior China Kiln

A PORTABLE HIGH TEMPERATURE KILN FOR POTTERIES AND STUDIOS

THE EXCELSIOR KILN is a scientific kiln, built on proper lines. Exterior form may or may not please the eye; the *oven* or *furnace* is what counts, however, and that is what we have been improving. We now have the BEST kiln on the market. No more cold drafts on account of open spaces caused by expansion. The EXCELSIOR KILN is absolutely positive. No more guess work in firing. Constructed of special tile made for the purpose and so arranged to produce perfect draft, the heat perfectly distributed, every corner as hot as the center, and everything comes out clean and perfect.

THE EXCELSIOR KILN is simple to fire and the most economical in the world—properly started it takes care of itself. You have a cool room and a hot oven when in use—heavy asbestos lining makes this possible—mounted on casters, the EXCELSIOR KILN can be moved from place to place. If by accident, repairs are required, write us just what is broken and state your kiln number and a duplicate part will be shipped to you which will fit perfectly—it is not necessary to return the kiln to the factory, as is the case with all other kilns made.

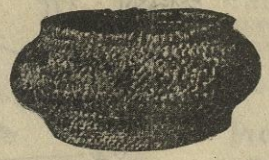
EVERY INCH GUARANTEED BY GEO. W. DAVIS & CO., OF ROCHESTER



RAFFIA FIBRE for BASKETS, Etc.

Raffia is the name given to a long-leaved palm found on the Island of Madagascar. The outer skin of the leaves is stripped off by the natives and tied in long hanks or braids, after which it is packed in bales ready for shipment. As a weaving material it is ideal, combining, as it does, softness and flexibility with great strength. The strands average three feet in length; this gives it a decided advantage over splints and grasses.

The Raffia which we import is the finest grade to be obtained on the island, and should not be compared with the cheaper coarse material offered by many and used principally as the tying material in gardens and nurseries. Besides the natural shade, we have it in fourteen different colors, a sample card of which will be mailed upon request.

Many fancy and useful articles can be made of Raffia. Baskets of all shapes and patterns, placques, napkin rings, chatelaines, photo frames, whisk broom holders, and a hundred other things that ingenuity can devise are possible when this material is used.

Above cut shows our method of packing China and materials to be forwarded by mail and express. Made of corrugated board, very light to reduce charges. Strong enough to sustain 300 lbs.

DIRECTIONS FOR APPLYING MINERAL TRANSFERS

MATERIALS REQUIRED FOR APPLYING TRANSFERS:

Small Rubber Roller,	30 cents
Vial Transfer, Medium,	20 cents
Bowl of Water, Small Chamois Skin, Small Sponge	

WET the sponge, and ring out the chamois skin in water, placing it spread out on the table.

Place transfer, after trimming away all superfluous paper, face downward on the damp chamois. Where the transfers are to be placed on an uneven surface, it is well to cut slits in the edge, as it avoids wrinkles in the film.

Hold piece of linen over finger, and apply to mouth of medium vial, and rub the medium on the linen all over space to be occupied by transfer. Take care to cover each and every spot, but don't use too much, or your transfer will blister in the fire.

Place the transfer face down on the china, and holding it firmly in place with one hand, wet it thoroughly with the wet sponge, and then roll it with the roller, proceeding with centre out, to remove all air bubbles. Press firmly so the transfer will adhere well to the china. With the Duplex Transfers (those that first must be split from the paper holding them), do not use the roller. Pressing with the damp sponge is all that is necessary.

Flood the transfer well with water, squeezing it from the sponge, or immersing the china in bowl of water. When the paper begins to "lift" around the edge, you may very carefully "peel" it away from the film. If you notice that the film seems to lift from the china (does not adhere well), let it alone for a few minutes, and then start to peel off from the opposite side.

Flood the picture again with water, squeezing from the sponge this time, and very carefully press the picture with the damp chamois, taking care not to move in any direction to tear the film. If any bubbles prove obstinate, and have not been rubbed down with the roller, prick them with a fine needle, and press with the chamois. Let stand twenty-four hours, or dry in slow heat of oven. May be treated after fire exactly as hand painting, and touched up to any extent. If laying in a background for first fire, do not paint over edge of the transfer, as the line will show after fire.

The Duplex Transfers come off easily and quickly, but the others must remain longer in water to have the paper peel off safely. The reds weaken much in fire, and may be retouched with Fry's Pompadour, or Lacroix Carnation, No. 1.

SPECIAL—WITH EVERY 25 CENT ORDER FOR SHIRT WAIST BUTTON SETS, SEND US THE NAMES OF SIX SUCCESSFUL CHINA DECORATORS, AND WE WILL SEND YOU A SET OF MINERAL TRANSFERS FREE.
